

Dear [REDACTED]

My name is [REDACTED] and I'm a 6th grade student at Hibbard School in Chicago. I feel excited about having a scientist pen pal because I never had a pen pal before.

In school I like reading. In school I love mixing chemicals. My favorite class is technology because I love computers. I like science because it's fun. My favorite thing to learn in science is space, sea creatures & animals because I love them.

Something you should know about me is that I have 3 nephews and 3 nieces. My birthday is October, 29, 2006. I have 2 dogs. Outside of school I like to skate and play the guitar. My family is huge. When I grow up I want to be an astronaut because I like space. One of my goals this year is

to get all a's.

Something I want to know about you is,
Do you have kids, If so How many? Another thing I
Want to know about you is What is it like in Germany?
What does a Global Innovation Management do?

Sincerely
